Halal Supply for Certified Markets

Dedicated sourcing for importers, distributors, food-service and retail channels

HALAL SUPPLY

Certification matched

Supplier certificate and product scope verified for each order

HALAL SUPPLY CONTROLS

- Appropriately certified processing partners
- Controlled slaughtering and processing workflow
- Segregated handling and storage where applicable
- Certification scope verified by product and market
- Supporting documents coordinated with shipment

TARGET HALAL BUYERS

- Halal importers and distributors
- Hotels, restaurants and catering groups
- Retail and supermarket programmes
- Institutional and community supply
- OEM and private-label customers

Halal availability is subject to the processor's valid certification scope, product approval and destination requirements.

Flexible Supply for Global Buyers

Commercial poultry formats for markets not requiring Halal certification

CONVENTIONAL SUPPLY

Global market flexibility

Products and formats aligned to each buyer's destination

CONVENTIONAL OPTIONS

- Whole chicken and buyer-specified cuts
- Fresh-chilled, frozen and IQF formats
- Veterinary and food-safety controls
- Bulk, food-service or retail packaging
- Export documentation aligned by destination

TARGET CONVENTIONAL BUYERS

- General food importers and wholesalers
- Food manufacturers and processors
- Hotels, restaurants and catering groups
- Retail and supermarket programmes
- OEM and private-label customers

Product availability, facility approval and documentation are confirmed for each destination market.
